

February 21 – Brotherhood at the Brewery – Mankato Brewery

Facilitated by Chris Collins, Head Brewer – Mankato Brewery

When I was an active student, Commander in Sigma Nu, President in Interfraternity Council, and Student Body President at MNSU, brotherhood was about building relationships based on ideas participating in an institution that served men not men serving an institution. It is in my whole-hearted belief that Leadership will benefit those that choose to participate.

Welcome brothers of Sigma Nu Fraternity. As an alumnus, I am proud to host a fraternal gathering. Our expectations are that you refrain from drinking until after the brotherhood. There is a free tasting involved after the event to those who are over the age of 21. For those choosing to not drink or under the age of 21 we have soda, tea, and water.

We are going to explore two topics that encompass creation of fermented goods and finding success by selectively using good ingredients to achieve a valuable product.

After a tour exploring both of these topics the brothers will assemble, in initiate number, in a circle and discuss success, ideals, and stories.

Please see attached bullets between brewing and Success

Brewing Education

- Beer Ingredients
 - Water
 - Barley
 - Hops
 - Yeast
 - Time
- Designing a beer as a team
- Making Beer: The Process
 - Brewing
 - Milling
